Lawn & Turf

Biologically enhanced eco-friendly lawn & turf fertiliser

Our Lawn & Turf fertiliser assists you in not just having a great looking lawn but also in keeping your soil healthy. Our Lawn & Turf fertiliser is a little different to most, focusing on:

1. Biology – we add microbes (fungi), to assist with microbial activity and increase the uptake of nutrients.
2. Balanced nutrients – we don't just focus on nitrogen, potassium and iron. We add a small percentage of phosphorous (for root development) and include essential trace elements, ensuring luxury uptake of minerals, and maintaining mineral balance & plant health.
3. Carbon – We include organic compounds, adding significant amounts of carbon content. This buffers the NPK & supports soil fertility.

Ideal for – professional sports fields; turf farms, golf courses, bowling greens, parks and home use where you are seeking a balanced, biologically enhanced fertiliser.

Lawn & Turf can be used in conjunction with Triple Boost Turf (liquid fertiliser).

 **Sizes: 1kg, 4kg, 10kg, 25kg & 1000kg**

Benefits

- Granulated for easy, convenient application.
- Low odour - No pong!
- Healthy vigorous growth.
- Substantial root mass increase.
- Rich, green, healthy turf appearance.
- Hard wearing, bounce back turf.
- Will not burn when applied at the recommended rates.
- Helps put carbon back into the soil.

Lawn & Turf

Biologically enhanced eco-friendly lawn & turf fertiliser

Typical Analysis * Standard Blend

Total Nitrogen	11.9%
Total Phosphorous	2%
Total Potassium	8%
Carbon	6.5%
Sulphur	16.5%
Calcium	4.4%
Magnesium	2.2%
Sodium	0.4%
Copper	928 ppm
Zinc	1150 ppm
Manganese	2300 ppm
Boron	93 ppm
Molybdenum	584 ppm
Silicon	112 ppm
PH	7-7.5
Appearance	Multi coloured granules

* Typical analysis only of bulk concentrate.
Analysis may vary due to natural inputs and dilution.

Applications – Cont.

APPLICATION RATES

- 30- 50 grams per square metre.
- 3- 5 kg per 100 square metres or
- 300-500 kg per hectare.

APPLICATION FREQUENCY

- Once a season in Spring, Summer and Autumn

ADDITIONAL POINTS OF NOTE

- To be used as part of a balanced nutrition program.
- While this fertiliser will not burn when applied at the recommended rate we recommend that you water in well after applying for best results (this helps activate the biology).
- All recommendations are provided as general advice only.
- Contains organic, inorganic and microbial inputs. Avoid breathing dust and wash hands after use. Wear safety equipment as required.

All recommendations are provided as general advice only. As no control can be exercised over storage, handling, mixing, application, weather, soil or plant conditions, the buyer assumes responsibility for the use of any Plant of Health products. *Note Analysis may vary slightly due to natural inputs.
