Organic Link®

Slow-release eco-friendly pelletised fertiliser

For those looking to keep your fertiliser program simple and have healthy plants and soil, Organic Link® is for you.

Organic Link® is a high-grade all-purpose blend that combines macronutrients, trace elements and microbes (along with humates and zeolite). Organic Link® is an organic based product that promotes soil and plant health through focusing not just on nutrient needs but the biology that supports those nutrients being available to the plant. Organic link is a fantastic all-purpose fertiliser that is suitable on most vegetables, natives, shrubs & soils.

Ideal for – Most applications (can be used with native and non-native plants) for the home gardener, landscaper, council and farmer. It is provided in a pellet form making it simple to use with most commercial spreaders. The pellet form also makes it simple to use for the home gardener and reduces the amount of dust when compared to a powdered fertiliser. Organic Link® can also be incorporated into potting mixes and other blends.

Benefits

- Provides plants and soils with a broad spectrum of nutrients.
- Contains minerals & trace elements
- Includes microbes (bacteria and fungi)
- Suitable for most vegetables, natives and shrubs and soils.
- Promotes healthy vigorous growth
- Supports root mass increase
- Supports rich, green, healthy appearance
- May increase yield and shelf life of crops
- Ideal for most domestic and commercial applications

Organic Link®

Slow release eco-friendly pelletised fertiliser

Typical Analysis * Standard Blend

Total Nitrogen	4.50%
Total Phosphorous	1.70%
Total Potassium	3.50%
Carbon	26%
Calcium	6.40%
Sulfur	1.9%
Silica	1.5%
Magnesium	4482 ppm
Boron	497 ppm
Copper	489 ppm
Zinc	489 ppm
Manganese	498 ppm
Boron	208 ppm
Molybdenum	80 ppm
Iron	1392 ppm

* Typical analysis only of bulk concentrate.
Analysis may vary due to natural inputs and dilution.

Applications – Cont.

APPLICATION RATES – General Use

- 120mm pots – 1 tablespoon
- 130mm pots – 2 tablespoons
- Garden Beds – 200gms/sqm
- Natives – 40gms/sqm

Apply under mulch or work into soil and water well to activate.

APPLICATION FREQUENCY – General Use

- Apply every three months for best results. For crops with high nutrient needs you can apply more regularly.

ADDITIONAL POINTS OF NOTE

- For maximum results combine with a liquid program of Triple Boost™ (all-purpose liquid fertiliser) and MPB-1™ (microbial blend)
- May be incorporated into potting mixers
- Store in a cool dry location away from direct sunlight

CUSTOM BLENDS

For commercial customers needing soil testing and or custom dry blends (pelletised, granulised or powdered) please contact our office.

All recommendations are provided as general advice only. As no control can be exercised over storage, handling, mixing, application, weather, soil or plant conditions, the buyer assumes responsibility for the use of any Plant of Health products. *Note Analysis may vary slightly due to natural inputs.
