## Turf Triple Boost™

### Biologically enhanced eco-friendly liquid turf fertiliser

For those looking to improve the health of your Turf and the soil, Turf Triple Boost™ is for you.

Turf Triple Boost is an excellent eco-friendly liquid fertiliser that can improve growth, strength & appearance of turf. Turf Triple Boost™ is a fusion of NPK (10/ 2/6) and minerals with organic compounds, to provide you a product that has enormous plant nutrition, coupled with minimal leaching and excellent up take. The organic compounds buffer the NPK and support soil fertility, while a range of natural minerals and trace elements delivers complete nutrition to the plant. Turf Triple Boost is suitable for domestic or commercial use & is ideal for home lawns, sports fields, turf farms, golf courses, bowling greens and parks. Turf Triple Boost™ can be used as a soil drench (applied to the soil) or applied as a foliar spray (applied to the leaf foliage).
